RESOLUTIONS:

Ms. BRAUN – Affordable Seniors Housing

20. WHEREAS seniors and elders deserve quality affordable housing; and

WHEREAS it is important that seniors and elders have access to housing in locations that keep them connected to their community and their families and close to places where they receive the services vital to their health and wellbeing; and

WHEREAS the Provincial Government has invested \$98 million in the first phase of its long-term care and housing strategy for seniors, Aging in Place; and

WHEREAS the Aging in Place strategy includes: expanded capacity for long-term care options such as supportive housing, specialized supports and supports for seniors in group living, replacement of three- and four-bed rooms with one- and two-bed rooms to help improve quality of life in personal-care homes; and

WHEREAS Assisted Living programs have been expanded with an additional 5 units expected to be completed in 2006/2007 with the goal of providing different types of living accommodations for seniors and elders with different needs; and

WHEREAS the Provincial Government recognizes that one housing method does not work for all seniors and elders which has led to alternatives to personal care home placements that are affordable and linked to the community; and

WHEREAS Provincial Government is committed to making sure that seniors and elders have a range of services that fit their particular life and social needs; and

WHEREAS seniors and elders are often more vulnerable when in care and making sure that they are not exploited is essential to protecting the integrity of older persons; and

WHEREAS the Provincial Government has mandated the Manitoba Housing Renewal Corporation (MHRC) to monitor private seniors homes to make sure that operating agreements are fair and equitable for all seniors and elders; and

WHEREAS the Province of Manitoba must continue to support seniors' and elders to ensure that they continue to be well cared for and have a range of services that continue to meet their personal needs.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba support the efforts of the Provincial Government in continuing to support the development of seniors and elders affordable housing; and

NOTICE PAPER

NOTICE OF MOTION FOR THURSDAY:

Mr. EICHLER – Protecting Lake Winnipeg through Sound Public Policy

22. WHEREAS Manitobans have a fundamental expectation that government leaders, policy makers, and stakeholders will work together to develop policies aimed at protecting the environment; and

WHEREAS Manitobans also have a reasonable expectation that environmental policies will be based on sound science and not politics; and

WHEREAS our livestock producers provide Manitobans and consumers around the world with high quality food grown in an environmentally sustainable manner; and

WHEREAS it is in the best interests of all Manitobans to maintain an economically viable and sustainable agriculture sector as we achieve environmental goals; and

WHEREAS it is all Manitobans – as well as those living in the Lake Winnipeg watershed beyond our borders – who contribute to the water quality problems in and the solutions for Lake Winnipeg; and

WHEREAS it is the responsibility of all Manitobans to help with the clean-up of Lake Winnipeg, and not any one individual sector of society; and

WHEREAS Manitobans are seeking innovative approaches and measurable outcomes from government environmental policies, not merely promises of future action.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba urge the Provincial Government to consider examining ways to partner with the agriculture industry and other stakeholders in the development of research and technology aimed at reducing nutrient loading to Lake Winnipeg; and

THEREFORE BE IT FURTHER RESOLVED that the Legislative Assembly of Manitoba urge the Provincial Government to recognize that the regulation of the agriculture sector should be just one in a series of collective initiatives involving all Manitobans aimed at reducing nutrient loading and improving the health of our water resources.
