RESOLUTION:

Ms. MARCELINO (Logan) – Protecting Manitoba's Lakes, Rivers and Communities

17. WHEREAS Manitoba's lakes, rivers and communities are special places which deserve government protection and investments so that future generations can continue to enjoy them; and

WHEREAS Winnipeg and Manitoba are home to beautiful natural rivers, like the Seine River, that are at risk of being degraded by pollution, climate change and public impact; and

WHEREAS the Provincial Government should be investing in protections for rivers by restoring waterways and their habitats, establishing development authorities that protect water sources and educating the public on sustainable environmental practices; and

WHEREAS the Provincial Government should be increasing protections for Manitoba's natural wonders but instead is loosening standards and weakening protections; and

WHEREAS the Provincial Government has removed a cap on hog barns that weaken environmental protections and make it harder for local residents to have their voices heard regarding the building of hog barns; and

WHEREAS the Provincial Government tried to remove a ban on harmful cosmetic pesticides, some of which have been classified as possibly carcinogenic; and

WHEREAS the Provincial Government cut a provincial agency that was responsible for delivering environmental protection programs; and

WHEREAS documented incidents of negative environmental effects, such as the impacts associated with the metal shredder in St. Boniface, can jeopardize the health and safety of families by polluting groundwater and causing dangerous air pollution; and

WHEREAS the Provincial Government should work with private industry to ensure manufacturers are properly regulated and take all precautions necessary to protect the environment.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba urge the Provincial Government to stop its plan to weaken environmental regulations, reverse cuts to environmental programs and services, and instead strengthen laws and initiatives that will protect provincial lakes and rivers as well as communities for families into the future.
