NOTICE OF MOTION FOR THE NEXT THURSDAY OF PRIVATE MEMBERS' BUSINESS:

PROPOSED RESOLUTION:

Mr. NESBITT – Protecting Lake Winnipeg from Sewage Pollution

4. WHEREAS for more than two weeks in February, 230 million liters of raw sewage spilled unabated from the Fort Garry Bridge sewer interceptor crossing in the City of Winnipeg into the north Red River and Lake Winnipeg; and

WHEREAS the Provincial Government's response to this escalating environmental crisis lacked the necessary urgency, as it failed to promptly and transparently communicate the incident to downstream communities; and

WHEREAS it was revealed in the media that the Minister of Environment and Climate Change was unaware of the crisis and its severity until she was informed by representatives of Treaty One Nations; and

WHEREAS the discharge of untreated sewage into waterways by municipalities is illegal both in Manitoba and across Canada; and

WHEREAS the City of Winnipeg is undertaking expensive upgrades to renew and modernize its wastewater infrastructure; and

WHEREAS the estimated cost to replace the faulty infrastructure responsible for February's sewage spill is \$96 million; and

WHEREAS there is a projected two-year timeline before construction on the replacement infrastructure will commence; and

WHEREAS Manitobans prioritize the protection of their water and Lake Winnipeg from pollution; and

WHEREAS Winnipeg's waterways are Manitoba's waterways, and the Red River, Lake Winnipeg, and the Hudson Bay watershed are vital sources of drinking water, sustenance, and recreation for all Manitobans, including First Nation, Metis, and Inuit communities.

THEREFORE BE IT RESOLVED that the Legislative Assembly of Manitoba urge the Provincial Government to expedite the funding and timeline of repairs to the Fort Garry Bridge sewer crossing, and further collaborate with the City of Winnipeg to develop a comprehensive master plan to upgrade and rebuild the City's sewer and wastewater infrastructure systems to prevent environmental catastrophes and provide for a long-term sustainable future.
